Year 6 of Primary Education

Evaluación y Calidad Atala
Sección de Evaluación y Calidad
Instructions
This test consists of three parts: Listening, Reading and Writing.

Listening
We will begin with a listening test. You will hear someone speaking about a situation.

- First, read the first 10 questions (2 minutes).
- Listen carefully to the recording. You will hear the recording twice.
- After each part you will have time to answer the questions.

For each question you have to circle the right answer. For example:

Example 1. How many months are there in a year?
A. 2 months.
B. 17 months.
C. 12 months.
D. 10 months.

If you decide to change your answer, cross out (X) your first option and circle your new answer. For example:

Example 1. How many months are there in a year?
X A. 2 months.
B. 17 months.
C. 12 months.
D. 10 months.

Reading
You will read 2 texts and answer several questions.

Writing
Lastly, you will write a short composition, following some instructions.

The whole test lasts 60 minutes
Listening – Visit to an Aquarium

1. Sea otters live in the ...
   A. Indian Ocean.
   B. Northern Pacific Ocean.  
   C. South Pacific Ocean.
   D. Atlantic Ocean.

2. The sea otter ______ walk on land.
   A. never
   B. can
   C. used to
   D. can’t

3. Walruses are eaten by...
   A. penguins.
   B. dolphins.
   C. orcas.
   D. squids.

4. What can you see only at the weekend?
   A. A seal show.
   B. A dolphin show.
   C. An orca Show.
   D. A penguin show.

5. What creatures like to live in groups of fifteen?
   A. Penguins.
   B. Sea otters.
   C. Dolphins.
   D. Killer whales.
6. Penguins are not scared of people because…
   A. people look like penguins.
   B. they have no predators on land.
   C. they are not afraid of anything.
   D. they live in the Southern Hemisphere.

7. Who are Spanky and Smarty?
   A. Seals.
   B. Dolphins.
   C. Penguins.
   D. Walruses.

8. The ______ will be retired and replaced soon.
   A. penguins
   B. seal show
   C. shark exhibit
   D. Big Blue Octopus exhibit

9. A ______ exhibit is coming soon.
   A. penguin
   B. jellyfish and squid
   C. shark
   D. sea otter and walrus

10. The ______ exhibit is viewable on the internet.
    A. penguin
    B. orca
    C. octopus
    D. seal
Reading 1 – Inventors

The Braille Alphabet - Louis Braille (Coupvray, France, 1809 - Paris, France, 1852)

Louis Braille was just 3 years old in 1812 when he was injured and lost his vision. Later on, as a teen studying at The National Institute for Blind Youth in Paris, he designed a system using raised dots in specific patterns to aid in reading. He found those blind students had books that allowed the students to use their hands to touch large raised words on the page as a means for them to read. Braille decided to create a better system using raised dots instead of raised letters. The language of Braille has become the tactile writing system used by the blind and the visually impaired around the world.

The first Braille book was released in 1829, and in 1837 Louis added symbols for math and music. Braille has been adapted for nearly every single language spoken in the world, from Arabic to Vietnamese.

Water Talkie - Richie Stachowski (Orinda, California USA 1985)

In 1996, 11-year-old Richie Stachowski went on a trip to Hawaii with his family. “I was surfing with my dad when we dove under. There were so many beautiful things to see. I wished we could talk underwater,” said Stachowski. After finding out that there were no inventions for this kind of sub-aquatic communication, Stachowski started researching underwater acoustics and trying out prototypes in the family pool. Eventually, he invented the Water Talkie – a conical device with a blow valve and plastic membrane that enables swimmers to talk with one another underwater from as far as 5 meters away.

Next, Stachowski went to New Jersey and showed his idea to Toys“R”Us. In few months, he had an order for 50,000 units. With the help of his mom, Stachowski started a company called Short Stack LLC (named in honor of his love for pancakes) and went on to invent other successful pool toys.
The Ice Cream Maker - Nancy Johnson (1795 - 1890 USA)

In 1843, Nancy became one of the most important women in history by patenting a design that made ice cream, which is still used to the current day! We don’t know what more to say other than thank you, Nancy Johnson. Thank you. No one knew where she was from, but people say Washington D.C., Philadelphia, and even New Jersey.

Nancy Johnson’s invention enables people to make ice cream, but also to sell them. We can buy ice cream almost everywhere.

The first 100 % solar powered house - Maria Telkes (Hungary 1900 - USA 1995)

In 1947, Maria Telkes, a Hungarian scientist invented the thermoelectric power generator to provide heat for Dover House, a wedge-shaped structure. She conceived the idea together with architect Eleanor Raymond. Girl power indeed!

She designed the first residential solar heating system and invented many patented solar-powered devices. She was known as the “Sun Queen” during her career due to her many inventions including one of the first successful solar ovens, solar heating systems, and a solar water cleaning system for making seawater potable.

Immigrating to the United States in 1925, Telkes took a position in solar energy research and development at the Massachusetts Institute of Technology (MIT), and became an Associate Research Professor in 1945 in the field of metallurgy. It was during her time at MIT that she became widely known for her research in solar energy.
11. Before Braille’s invention, what reading system was used by people with visual difficulties?
   A. Storytelling.
   B. Raised dots.
   C. Listening.
   D. Raised letters.

12. Which is the oldest invention?
   A. The Braille Alphabet.
   B. The Water Talkie.
   C. The ice cream maker.
   D. The solar powered house.

13. Who were children or teenagers when they became inventors?
   A. Nancy Johnson and Louis Braille.
   B. Maria Telkes and Nancy Johnson.
   C. Richie Stachowski and Louis Braille.
   D. Louis Braille.

14. Richie Stachowski had his idea while he was ___________ in Hawaii.
   A. talking
   B. snorkelling
   C. windsurfing
   D. surfing

15. Where did Stachowski start the researching in underwater acoustics?
   A. In the bath.
   B. In a river.
   C. in the pool.
   D. At the sea.

16. What’s the shape of the Water Talkie?
   A. Conical.
   B. Triangular.
   C. Hexagonal.
   D. Spherical.
17. ___________ is still alive and he is the inventor of a variety of toys that can be used in water.

18. What is Nancy Johnson’s invention exactly for?
   A. Freezing ice cream.
   B. Making and selling ice cream.
   C. Giving colour to the ice cream.
   D. Making ice cream cones.

19. What type of invention can we buy in a food shop or a supermarket?
   A. An ice cream.
   B. A solar powered house.
   C. The Water Talkie.
   D. The Braille Alphabet.

20. What invention would you feel thankful if you feel hungry?
   A. The water Talkie.
   B. A solar powered house.
   C. An ice cream.
   D. A book written in Braille system.

21. Some other solar inventions by Maria Telkes are...
   A. ovens, water distilling or heating systems.
   B. heating systems and mobile phone chargers.
   C. ovens, heaters and streetlights.
   D. water and spirit distilling systems.
22. Maria Telkes carried out her Dover House heating project co-working with ________________________________.

Irati Forest

The Irati Forest is the second largest and best preserved beech and fir tree forest in Europe, an immense green forest of 17,000 hectares that that still remain wild. Located in Pyrenees of Navarre, it is a natural treasure. There are two ways to access the Irati Forest: on the western side from Orbaitzeta and on the eastern side from the pretty village of Otsagabia.

Sit down in the heart of the forest and enjoy nature; the silence is broken only by the sound of water. Admire the crystalline colour of the Irati river that turns turquoise in the Irabia reservoir and listen to the sounds of the fauna.

This place is the habitat of multiple wild animals, birds and fish such as: foxes, wild boars, roe deers, stags, goldcrests, chaffinches, robins, black woodpeckers, white-backed woodpeckers and trouts.

The variety of colour is amazing in autumn when brown, yellow and red leaves decorate the tops of the trees.

Activities

Mountain biking

There are incredible cycling trails and tracks all around the Irati Forest, suitable for children and families (green line), of moderate difficulty for people in general (blue line), or of advanced difficulty for risky, adventurous people (red line).

Bungy jumping

One jump full of emotion. Bungee jumping is like a giant pendulum as we jump from one point on the bridge and the ropes are attached at the opposite end. Jumping from the Orbara bridge (100 meters high) is one of the most exciting experiences you can feel, it’s a 7 seconds free fall!

To practice bungy jumping at Irati Forest, please contact www.iratiaventura.com
Where to sleep

There are campsites, hotels or touristic apartments, but the rural guesthouses are the best option in the area. There are lots of them, sorted by price, location or number of rooms at navarrabooking.com. Here you have some examples:

<table>
<thead>
<tr>
<th>Name</th>

30. How tall is the Orbara Bridge?
   A. 110 meters tall.
   B. 107 m.
   C. **Taller than 90 meters.**
   D. 332 m.

31. Which is a type of fish you can find at this nature reserve?
   A. A woodpecker.
   B. A hake.
   C. **A trout.**
   D. A deer.
Have you ever had a **perfect holiday**?

Do you remember some of the things you did during the holiday?

Write about it, and enjoy imagining it…

Here you have some ideas or things to take into account:

*Where did you go? When did you go? Who did you go with? What did you see and do there? Where did you stay? What places did you visit? Did you try any new kind of food or drink during your holidays? Etc.*

*Notes & draft box (to write ideas or key words). This planning is not scored.*
32. Now write your text here. Be careful with the punctuation and remember the use of paragraphs and capital letters. Be creative!

ANEXO: DECRETO FORAL 60/2014, páginas 92, 93 (punto 4 – Estructuras sintácticas)

1. Expresión de relaciones lógicas:
   a. conjunción (and);
   b. disyunción (or);
   c. oposición (but);
   d. causa (because);
   e. finalidad (to-infinitive, e. g. I did it to help her);
   f. comparación (as Adj. as; smaller (than); the biggest).

2. Relaciones temporales (when; before; after).

3. Afirmación
   a. Affirmative sentences;
   b. Yes (+ tag)

4. Exclamación (What + noun, e. g. What fun!; How + Adj., e. g. How nice!; exclamatory sentences, e. g. I love salad!).

5. Negación
   a. Negative sentences with not, never, no (Adj.), nobody, nothing;
   b. No (+ negative tag)).

6. Interrogación
   a. Wh- questions;
   b. Aux. questions.

7. Expresión del tiempo:
   a. pasado (simple past; present perfect);
   b. presente (simple present);
   c. futuro (going to; will).

8. Expresión del aspecto:
   a. puntual (simple tenses);
   b. durativo (present and past continuous);
   c. habitual (simple tenses (+ Adv., e. g. always, everyday));
   d. incoativo (start –ing);
   e. terminativo (finish –ing).

9. Expresión de la modalidad:
   a. factualidad (declarative sentences);
   b. capacidad (can); posibilidad (may);
   c. necesidad (must; need);
   d. obligación (have (got) to; imperative);
   e. permiso (can; may);
   f. intención (going to; will).

10. Expresión de
    a. la existencia (there is/are);
    b. la entidad (nouns and pronouns, articles, demonstratives);
    c. la cualidad (very + Adj.).

11. Expresión de la cantidad
    a. Singular/plural;
    b. Cardinal numerals up to four digits;
    c. Ordinal numerals up to two digits.
    d. Quantity: all, many, a lot, some, (a) few, (a) little, more, much, half, a bottle/cup/glass/piece of.
    e. Degree: very, too, enough).

12. Expresión del espacio
    a. (prepositions and adverbs of location, position, distance, motion, direction, origin and arrangement).

13. Expresión del tiempo
    a. (points (e. g. quarter past five);
    b. divisions (e. g. half an hour, summer);
    c. and indications (e. g. now, tomorrow (morning)) of time;
    d. duration (e. g. for two days);
    e. anteriority (before); posteriority (after);
    f. sequence (first…then);
    g. simultaneousness (at the same time);
    h. frequency (e. g. sometimes, on Sundays).

14. Expresión del modo (Adv. of manner, e. g. slowly, well).
SOME SAMPLE MARKED COMPOSITIONS

Below are six authentic samples of marked compositions written by year 6 of Primary Education pupils and the marks given.

SAMPLE Nº 1

**My family and my go to Paris City, it the city of the love and have got very beautiful Monte and beach why go to Paris the one of January. Why go to visit the Monts de France very big and have got very beautiful place why go to the supermarkets of Paris to buy good and come home to the hotel. And now when one in London why look the big Feng and the London eye why come in live of march.**

SAMPLE Nº 2

This holidays I go to Cadiz to play basketball champion of Spain let's go to Seville to see the city.

In Taragona my family go to the beach and an acrobatic park there of lets go to Villamena for camera.

My friends and I go to San Sebastian to surfing.

I go to Villamena for a campus of basketball.
The last year we went in Paris with my family. We were in a hotel near the Eifel Tower. The first day we went to Disneyland Paris. It’s amazing! The second day we went to visit Paris. Also we went to the Louvre. It’s #!!! very boring. We climbed the Eifel tower. It’s very hot. We bought a lot of things (presents, croissant delicious) for my grand parents.

This last holidays, I went to "Cerdeña", an island not very far from Italy. I went in the last week of July, to the first week of August, and I went with 2 of my best friends and with our parents. We saw very beautiful seas and places like museums, shops... We was separated in a pretty hotel with the sea over the window. We visited a village called "Pollau" that was like a circus. We played a lot in that circus. Also, you have opportunities to eat special kind of good that here you don't eat. And another things that also are here. Like the famous Pizza or the very juicy spaghetti. This are the best holidays, with my friends joking on the hotel's pool or in the turquoise sea. Next year, I want holidays like this. But in New York that I like it so much!

Item 32 – Total: 12
This summer I went to a camping near the Roda de Bara village. The camping is called Playa Bara. I went in August with my family and give more friends. The beach was near the camping, so we went to the beach everyday. There were rocks under the sea and lots of fishes near the rocks. We snorkelled there and we saw a lot of rare types of fishes. One day, we went walking to the port to eat in a restaurant.

At the camping, we played minigolf and we went bowling. We met a lot of friends and we saw the night shows with them.

We went to a village near Roda de Bara. There were 'castellers' and they danced a typical dance from Catalunya. After that, we come back to the camping. We stayed for ten days there and then, we come back to Pamplona.
